

Dear Business Partners and Friends,

We proudly announce the official release of the  
New DNA® High Performance Stage 2 TC-BM13E24-S2-SET,  
for the following BMW model:

✓ R1300 GS 23'-24'

- This filter features DNA®'s Stage 2 kit eliminates the OEM intake snorkel of BMW model and offers higher performance and better intake sound.
- This Stage 2 kit is designed to replace the stock plastic air box intake cover. Combined with the P-BM13E24-01 (sold separately) will increase the Airflow, Filtering Efficiency, Power, Torque and Throttle response.
- The airflow of this new DNA Stage 2 combined ALWAYS with the DNA Stage 1 Air Filter (P-BM13E24-01) is **+41.20%** more than the OEM air filter with BMW air box cover applied!  
- Stock air box with DNA S2 & S1 air filter flow : **8500 lit/min** @ 10 mBar corrected @ 25degrees Celsius  
- Stock airbox with stock cover & OEM air filter: **6024 lit/min** @ 10 mBar corrected @ 25degrees Celsius
- This DNA® Stage 2 kit is designed as a High Flow product for:  
**'Race use only'**.

Filtering efficiency is the amount of "dirt" the filter can maintain (stop) and protect the engine efficiently. For example the DNA® Filter for every 100 grams of dirt that it will receive, it will hold 98-99 grams, this applies even to fine dirt as small as 5 microns.
